# 1.

## COVID-19: Global situation

Due to the **COVID-19** public health alert, companies, institutions and organisations must ensure that the **spaces** in which people interact are **clean, hygienic and protected** against any kind of infection.

### Why opt for a kit?

**Protection and hygiene kits for emergency use.**

We offer our customers a **kit for personal use** that covers the **basic protection needs** for COVID-19 or other biological agents.

We have developed a **“Mini Personal Protection Kit”** that guarantees no-risk protection for employees, customers and the general public.

## 2. Personal protection kit

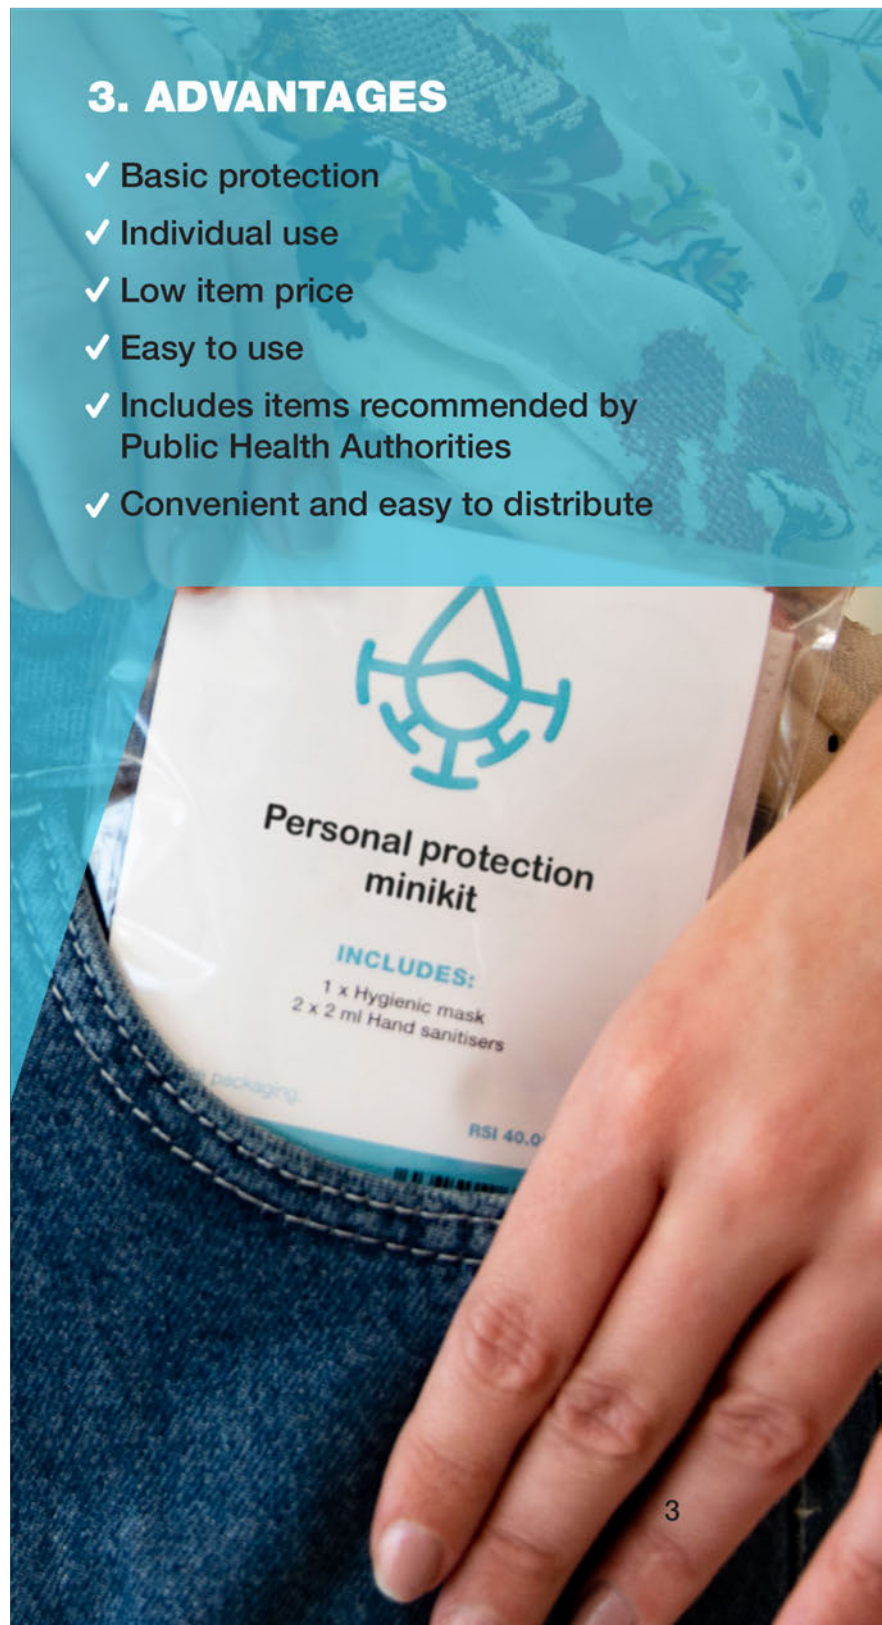

### The protection you need in a single kit

Ideal for ensuring basic protection for a healthy adult if the minimum safety distance recommended by the Public Health Authority cannot be observed.

The kit contains **the necessary items** for guaranteeing **basic protection**.

## 3. ADVANTAGES

- ✓ Basic protection
- ✓ Individual use
- ✓ Low item price
- ✓ Easy to use
- ✓ Includes items recommended by Public Health Authorities
- ✓ Convenient and easy to distribute

# 4. KIT CONTENTS

To guarantee basic protection, the kit includes:

- 1 x Hygienic mask
- 2 x Single-dose sachet of hand sanitiser

x 1

x 2

## 5. HYGIENIC MASK

Non-reusable hygienic mask, for adults. The design enables mouth, nose and chin to be covered and the mask is gently held in place with elastic straps.

Complies with Specification UNE 0064-1:2020.

Approved in accordance with tests based on UNE standard EN 14683:2019+AC:2019

### FEATURES

- Flexible nose strip
- 3 layers
- Non-reusable
- Adult use
- Heat-sealed finish

### USE

The mask should be used for a maximum of 4 hours and if it becomes wet or deteriorates while in use it should be replaced with a fresh mask to guarantee basic protection.

## 6. HAND SANITISER

The kit has 2 single-dose gel hand sanitisers to keep hands clean and protected. The gel composition includes organically grown Aloe Vera and Jojoba to hydrate and soften hands.

### FEATURES

- 70% alcohol
- Easy to use
- No rinse
- Not tested on animals
- Made with purified water
- 2ml per single-dose sachet

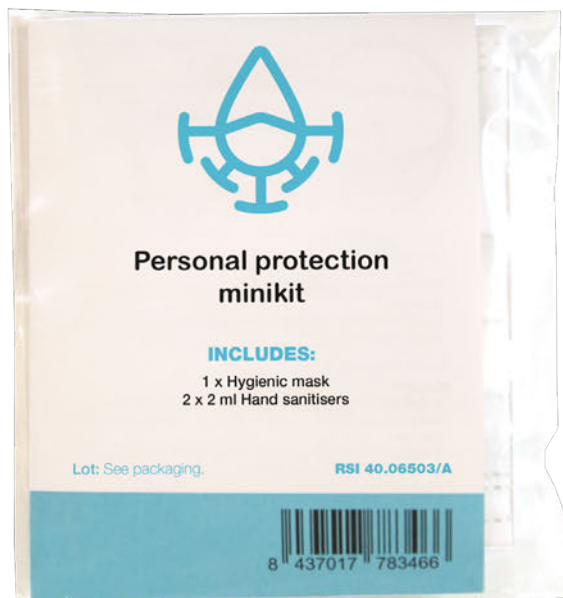

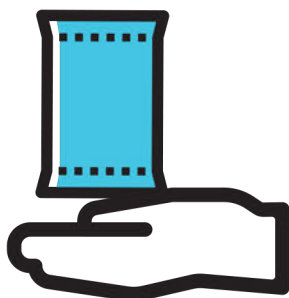

### USE

The entire single-dose sachet should be applied once opened.

## 7. PACKAGING

The kit is packed in a transparent plastic bag, allowing the contents to be identified. The kit also comes with a leaflet with information on how to use each item. Its small size (10.5 cm x 11.5 cm) means it can be distributed easily and stored anywhere.

## 8. OUR GREEN APPROACH

All products and projects have a Green approach.

The kit's Green credentials:

**Organic:** Aloe Vera in the hand sanitiser.

## 9. MORE THAN 35 YEARS DEALING WITH EMERGENCY SITUATIONS

**High quality and certified standards**

**Direct, personalised, fast communication**

**Tailor-made (language, design and packaging)**

**Quick response and service**

“  
**Always ready to tackle the most unexpected situations**  
”

# Warehouse technical specifications

Although our kits can perform in extreme conditions, we recommend observing some storage conditions for long periods:

**FEFO storage system (First Expire First Out):** The minor kits shelf life pallets must be the first to be distributed.

**Temperatures:** Between 0°C and 26°C (32°F and 78.8°F).

**Relative humidity:** Between %45 and %60.

**Ventilation:** Ensure good ventilation, maintaining the correct distance between the pallet and the floor, walls and ceiling.

## Handling

When handling:

- Avoid damaging the pallet when moving with a fork-lift or other device.
- Avoid damaging any of the boxes.
- Place the pallets well away from each other in order not to tear the stretch wrap.
